Come learn the basic skills needed to compete in the upcoming **Cascade Friday Nighter TSD Rally** season! Experienced rally master Simon Levear will cover the information you need to get started in road rally, including the common terms used, and how to use Cascade's Road Rally Rules to correctly read and interpret route instructions. After the morning classroom session and lunch break, you will run an actual rally to test out your newly learned skills. At the finish, you will have an opportunity to review the rally and ask any questions you may have after trying the real thing.

Helpful items to bring include a pen or pencil, clock that shows seconds, and a clipboard, but are not required to participate or have fun!
